Hi Bill,

Sorry for not following up earlier. Thank you for the permit and the additional information! This will be very helpful.

Hi Erin,

Please see the attached permit for HFC.

The Township typically does not have issues with the discharge from HFC. In the last 5 year from 2016 – 2020 we have conducted about 520 sampling event and they have exceeded their limit for lbs. of BOD 6 times and their limit for lbs. of NH3 7 times.

When we see an issue with their discharge and contact them, they are very responsive to adjust the treatment process to come into compliance.

They have also addressed potential future issues like these with improvements to the treatment facility.

Let me know if you need anything else.

Thanks

Bill Mahone

Hi Bill,

Thanks again for the information you provided earlier this week. To follow up, I'd like to request a copy of Hanover's industrial pretreatment permit. Has Penn Township POTW had issues with noncompliance with Hanover's pretreatment permit in the past 5 years?

Please let me know if I should set up a call to discuss further. Thank you!

Good morning,

HFC is permitted to discharge a monthly average flow of 450,000 gallons per day to Penn Township treatment facility. The cost is \$6.00 per 1,000 gallons.

Thanks
